Patrick Hancock

Director of Enterprise Intelligence | AI & Data Operations

phancock.portfolio@gmail.com | Waynesboro, VA | linkedin.com/in/pahancock89

SUMMARY

Business intelligence and AI leader who turns fragmented operational data into governed, automated decision systems. Delivered a human-in-the-loop AI workflow in 10 business days that automates ~85% of ~300 weekly notices, and led the case for Microsoft Fabric across Salesforce, NetSuite, PostgreSQL, and Azure. Brings a decade of P&L, compliance, and records-governance leadership to measurable, secure AI adoption.

EXPERIENCE

CHRONOLOGICAL PERFORMANCE RECORD

Business Intelligence Manager, masLabor

(Feb 2024 - Oct 2026)

HITL Engine (10-Day SLA): Intake (~300/wk) → Confidence Score → **85% Automated** / **15% Review** → RevRec

- Delivered an end-to-end, low-code, human-in-the-loop AI notice workflow in 10 business days (email/scanned-mail intake through confidence scoring to revenue recognition), processing ~300 weekly notices with ~85% automated processing and ~15% routed for review.
- Built AI cost observability that priced agent/subagent token usage in dollars, with granular breakdowns by department, program, Claude model, user, and question type.
- Secured leadership buy-in for Microsoft Fabric to architect a governed medallion data architecture (bronze/silver/gold) with a full audit schema, integrating enterprise CRM, core financial systems, PostgreSQL, Azure, and government data sources into a unified single source of truth.
- Engineered agentic orchestration and an enterprise semantic layer for the company's natural-language AI assistant to classify requests, query data, call applications, and route escalations, ensuring all outputs are grounded in logically audited business data.
- Designed data-quality controls for every major KPI and work-stage milestone, flagging entry errors and reconciling operational counts to finance records.
- Promoted from Business Manager, H-2A Visa Program (Sep 2023 - Feb 2024), after directing operations and capacity planning for a 16-person team across two offices and centralizing knowledge to cut key-person risk.

Property Manager, Denstock Management

(Feb 2023 - Sep 2023)

- Led P&L for a 352-unit HUD-regulated community, directing leasing, maintenance, finance, and legal teams.
- Earned a record 97/100 HUD compliance score—the portfolio's highest—while sustaining 99.5% occupancy.

General Manager, The Scion Group

(Jul 2021 - Feb 2023)

- Directed a flagship high-rise with 15 staff (30 at peak) across HR, finance, legal, leasing, and maintenance.
- Turned renewal rates, at-risk renewals, and resident satisfaction surveys into data-backed leasing and retention strategies, and delivered low-cost property enhancements that opened new revenue streams.

Assistant Property Manager, Cushman & Wakefield, Grand American, FirstService

(2016 - 2021)

- Developed the $10.2M annual operating-expense budget against $23M in operating income and delivered comprehensive monthly and quarterly variance reporting to ownership and asset management to drive portfolio accountability.
- Optimized maintenance capacity and operational velocity, slashing work-order turnaround from two weeks to 24–48 hours by restructuring task prioritization frameworks and performance tracking.

Knowledge Operations Manager, United States Air Force

(Mar 2010 - Apr 2014)

- Governed enterprise information systems and cross-functional workflows, rebuilding an 83-office records program into one rated "Superior" by Air Combat Command.
- Conducted 274 compliance audits against Air Force records standards; administered SharePoint for 1,700+ users and trained 650+ personnel on information assurance.
- Served as the emergency accountability focal point in the Emergency Command Center, orchestrating cross-functional contingency workflows for 4,000+ personnel.
